SUBJECT: Lindsay Light II/Grand Pier Sites
Completed Forms DOE.ROW.01

DATE: 11/3/2000

Accompanying this memorandum you will find the subject forms DOE.ROW.01 that have been completed by the Department of Environment (DOE).

Pursuant to paragraph 10(a) of the Right-of-Way Agreement dated September 27, 1999, attached please find copies of DOE.ROW.01 (and any relevant attachments) executed by permit applicants who have sought to conduct subsurface activities within the subject rights-of-way. DOE has provided them with a copy of the sites' Health and Safety Plan and allowed them the opportunity to review any additional information DOE has regarding these sites.

If you have any questions, please call (312) 744-7606. Thank you for your cooperation.

CITY OF CHICAGO DEPARTMENT OF ENVIRONMENT
FORM NO. DOE.ROW.01

Notice is hereby given that the site you have requested information on is recorded with the City of Chicago Department of Environment as potentially having environmental contamination on the site and adjacent right-of-way. This environmental contamination could present a threat to human health and safety in connection with work performed at the site, or in the adjacent right-of-way, if proper safeguards are not employed.

A file containing detailed information regarding the aforementioned environmental contamination is available for review at the Department of Environment at 30 N. LaSalle St., 25th Floor, Chicago, Illinois 60602 during normal business hours (8:30 AM - 4:30 PM, Monday through Friday). Contact Rhamat Begum at (312) 744-3152 for an appointment. This file must be reviewed and the remainder of this form completed before the permit can be issued.

Please complete the following:

I have reviewed and understand the documents, maintained by the Department of Environment, regarding environmental contamination of the site and adjacent right-of-way. Further, I will assure that all work at the subject site and adjacent right-of-way will be performed in a manner that is protective of human health and the environment and in compliance with all applicable local, state, and federal laws, rules, and regulations, especially those pertaining to worker safety and waste management.
